Birth chart? If you're an astrologer, you learn amazing information about your personality and make predictions. If you're not an astrologer, you can puzzle over the circles and symbols--until now. Astrology for Self-Empowerment by Dovid Strusiner moves astrology to entirely new realms, making this a must for both the astrological expert and those unfamiliar with the science. It takes the basic information from the chart and shows you how to change your life so you can achieve your spiritual and worldly goals easily. The technique starts with the birth chart. If you are an astrologer, you can draw this yourself. If not, the book includes a coupon to receive a free natal chart. Even the postage is paid. The book describes the basic meanings of the sun signs, planets, and more--but that is just the start--Astrology for Self-Empowerment shows that you are not at the mercy of the

planets and stars. Instead, you can use their archetypal power to:

- Create the future you want
- Overcome self-defeating subconscious programming
- Create a life that is richer in every way

This book shows you how to do this with techniques of self-exploration, visualization, affirmation, invocation, breath work, and working with the gems and crystals associated with the planets and signs. These are tied together in a powerful and easy-to-use program for self-change and empowerment. Examples show you how to do this easily for yourself. Astrology for Self-Empowerment will empower you to change your universe and become what you want to be. You owe it to yourself to get this book. This is a Print-on-Demand title. This academically integrated text offers the first in-depth astrological/psychological guide to empower and transform one's life and perspective. All cross-disciplined and academic subjects that can be integrated into this philosophic structure, are referenced and explained. This text is complete with all basic astrological signifiers delineated with new and expanded insight. A complete explanation of how we bring our early environment and beliefs into adulthood and create our reality and experiences, is explored and explained psychologically, metaphysically and pragmatically. This book blends many different philosophies and gives the message that using astrology can be a tool to self-understanding and transformation; that it is not a mysterious tool of divination but that it can be used to examine our

existing beliefs, and that it is up to us what we do with that knowledge. The ideas in this book challenge the reader to look at the responsibility they have for their own lives, and begin to teach how to do this using astrology. The individual interpretations of placements are basic. The author has delved to the core of the meanings of the archetypes from a psychological perspective. The results are dynamic, all-encompassing (yet specific to the placement) keys, with which to begin delineations. This is something that has been lacking in many other astrology books with more shallow definitions. There are several example delineations of charts which take the reader through the process of using this information in a complete chart, showing how the insight from the previous chapters can be used to "read" a chart. Definitely a work of text-book caliber, not a coffee-table book.

The Integrated Astrological Guide continues with this second volume. This particular text deals with the encoding of information both astrologically and generally that interferes with and colors our critical thinking skills and ability for accurate foresight. Although myths are used to convey concepts, the running theme in all works is that neither astrology nor myths “ cause ” anything, and that each person ’ s reality is the result of free will effort and choices at every given moment. They do however; reflect engrained archetypal belief structures passed down over millennia. Those belief structures do affect reality. Logical rules will be increased in this volume and fallacious thinking illuminated not only in traditional astrological principles, but in widely accepted social attitudes.

A guide to using astrology for personal empowerment.

A woman who struggles on the spiritual path needs validation, guidance, inspiration and practical advice. This handbook is to help her survive the transition of the past several centuries and come to her full empowerment. This is especially for she who needs to reprogram herself as the Warrior Priestess in what is still a mans world. It is for the one who seeks to understand her place as the embodiment of the Divine Feminine Spirit because now it is time to uplift the wounded feminine consciousness to its rightful power, to transmute the negative results of ignorance and subjugation. This book is a call and a guide for the neophyte on the Path as well as for all the extraordinary women who are searching for a Friend in the dark, when they are

feeling most damned and abandoned because of their Vision. It is for all the Spiritual Warrior/Priestesses who have forgotten some of the pitfalls, as well as the joys, of their Journey. This book will serve as an inspiration for those who have lost that Sight. In the playing field of womens spirituality, no one book or resource offers such a clear picture of the magical destiny of the Woman of Tomorrow, especially for those with eclectic beliefs. THE WAY OF THE WARRIOR PRIESTESS addresses this need for self transformation by inspiring the reader with important quotations as well as the authors guidance, step by step direction, affirmations, useful astrological insights, as well as a section that asks questions that will push the reader into changing some tired perceptions. It is written to fire up the spirit of the sleeping Feminine Spirit in both women and men. It is a handbook

and empowerment manual for the
growing army of individuals born at this

special time in Mother Earths history to
help rebalance Her during certain

changes. ...for all of those brave souls
willing to go in an exciting new direction.

WHY THE READER SHOULD READ

THIS BOOK This is not another book
about the womens spirituality movement
or about why women are goddesses.

Rather it is a bridge between traditional
magickal wisdom and the everyday
challenges of the woman of the 90s. It is a
call to transformation and will answer the
intense desire for women of all ages and
colors to heal their lives. It will give them
permission and purpose to become what
they really are: perfected beings. It will
also bring on an almost-instant wakeup
call for men. It embraces no particular
theology, religion or mythology and is not
a psychological treatise. It does not

advocate any one path to take, nor is it anti anything except ignorance....It does come from a spacious metaphysical vision that many will relate to with a sigh of relief. The average woman is still rather paralyzed and in partial ignorance of her power as a Magical Being...because she does not even have the voice or words to help herself. And most books on this subject are still either too academic or beyond the average womans experiences. This book will serve as a tool and a light to help her see herself. The Talking Stick section at the end of each chapter is to jumpstart some profound self questioning - as well as a handy starting point in teaching situations....ideal to teach self empowerment workshops all over the world. The extensive Resources section at the back of the book is to help locate the key material for the process. This book will be appropriate for several markets:
